### MOSS DESIGN

**A** client with the philosophy of "more is more" and a love of color and pattern gave the designers plenty of opportunity to create an original plan for this kitchen. After some rearranging to accommodate structural and layout requirements and concerns, the kitchen's working area is built around a low-maintenance, high-functioning heart: a stylish extra-large Nano glass island that is also sturdy enough to take the wear and tear of an active family. Flavor Paper's Brooklyn Toile wallpaper sets off the eat-in kitchen table, and high-voltage custom colored lockers brighten the adjoining mudroom. The top note for this renovated space is an exquisitely detailed butler's pantry, with custom cabinetry in a gleaming green lacquer, a walnut countertop, Anna French wallpaper on the ceiling and a delicate Arteriors glass pendant.
